Sri Eshwar College of Engineering – Minimum Cutoff 2025–2026

Artificial Intelligence and Data Science (AIDS)

The minimum cutoff marks for the Artificial Intelligence and Data Science department at Sri Eshwar College of Engineering for the academic year 2025–2026 are as follows:

- OC: 190
- BC: 188.5
- BCM: 184.5
- MBC: 184.5
- SC: 163
- SCA: 153.5
- ST: 155.5

Artificial Intelligence and Machine Learning (AM)

The minimum cutoff marks for the Artificial Intelligence and Machine Learning department are:

- OC: 190
- BC: 188
- BCM: 184
- MBC: 183
- SC: 160
- SCA: 161
- ST: 150

Computer Science and Business Systems (CSBS)

The minimum cutoff marks for the Computer Science and Business Systems department are:

- OC: 187.5
- BC: 187
- BCM: 182.5
- MBC: 182.5
- SC: 162.79
- SCA: 141.5
- ST: Not Available

Computer and Communication Engineering (CCE)

The minimum cutoff marks for the Computer and Communication Engineering department are:

- OC: 189

- BC: 187.5
- BCM: 184
- MBC: 184
- SC: 153
- SCA: 156
- ST: Not Available

Computer Science and Engineering (CSE)

The minimum cutoff marks for the Computer Science and Engineering department are:

- OC: 193.5
- BC: 192
- BCM: 187.5
- MBC: 189.5
- SC: 175
- SCA: 172.5
- ST: 191

Electronics and Communication Engineering (ECE)

The minimum cutoff marks for the Electronics and Communication Engineering department are:

- OC: 191.5
- BC: 190
- BCM: 185.5
- MBC: 187.5
- SC: 160.5
- SCA: 173
- ST: 152.5

Electrical and Electronics Engineering (EEE)

The minimum cutoff marks for the Electrical and Electronics Engineering department are:

- OC: 187
- BC: 185.5
- BCM: 184.5
- MBC: 180.5
- SC: 152.5
- SCA: 145.5

- ST: Not Available

Information Technology (IT)

The minimum cutoff marks for the Information Technology department are:

- OC: 192.5
- BC: 190.5
- BCM: 187
- MBC: 187
- SC: 173.5
- SCA: 159.5
- ST: Not Available

Mechanical Engineering (MECH)

The minimum cutoff marks for the Mechanical Engineering department are:

- OC: 184
- BC: 182
- BCM: Not Available
- MBC: 175.5
- SC: 147
- SCA: Not Available
- ST: Not Available

Cyber Security

The minimum cutoff marks for the Cyber Security department are:

- OC: 190.5
- BC: 189
- BCM: 186
- MBC: 185
- SC: 159
- SCA: 150.5
- ST: Not Available

Sri Eshwar College of Engineering – Complete Website Analysis Dataset

1. Overview

Sri Eshwar College of Engineering (SECE) is an engineering institution located in Kondampatti, Vadasithur via Coimbatore, Tamil Nadu, India. The college provides engineering education with a focus on industry-ready skills, research, innovation, and career development. It aims to produce globally competent engineers through value-based education and modern learning facilities.

The institution emphasizes strong industry connections, innovation, and practical learning to prepare students for global technology careers.

---

2. Vision and Mission

Vision

To be recognized as a premier institution that develops students into globally acknowledged engineering professionals.

Mission

- Provide outcome-based and value-based engineering education.
- Encourage research and entrepreneurial culture.
- Prepare students to become industry-ready professionals.
- Develop leadership and behavioral skills.
- Promote social responsibility among students.

---

3. Academic Departments

Sri Eshwar College of Engineering consists of several academic departments that offer specialized engineering programs.

Core Departments

- Computer Science and Engineering (CSE)
- Artificial Intelligence and Data Science (AIDS)
- Artificial Intelligence and Machine Learning (AI & ML)
- Computer Science and Business Systems (CSBS)
- Computer and Communication Engineering (CCE)
- Information Technology (IT)
- Cyber Security
- Electronics and Communication Engineering (ECE)
- Electrical and Electronics Engineering (EEE)
- Mechanical Engineering (MECH)
- Science and Humanities

Each department has experienced faculty members and industry-aligned laboratories.

---

4. Learning Areas and Technologies

For example, the Computer Science department teaches various modern technologies including:

- Artificial Intelligence
- Machine Learning
- Agile Software Development
- Cybersecurity
- Augmented Reality and Virtual Reality
- Object-Oriented Programming
- Computer Networks
- Database Management Systems
- Cloud Technologies
- Data Science
- Programming languages such as C, Python, and Java.

The departments also provide next-generation laboratories for emerging technologies.

---

5. Infrastructure and Campus Facilities

Sri Eshwar College provides modern infrastructure to support education and research.

Major Facilities

- Advanced computer laboratories
- Industry-powered technology labs
- Smart classrooms
- Research laboratories
- Library and digital resources
- Hostels for students
- Sports and fitness facilities
- Auditorium and seminar halls

The college aims to create an environment where students can develop technical, social, and leadership skills.

---

6. Placement and Career Development

The college has a dedicated career development center that prepares students for industry placements.

Placement Highlights

- Around **200 companies visit the campus every year**.
- Students are placed in **120+ multinational companies**.
- Highest salary package: **₹44 LPA**.

- Average salary package: around **₹10 LPA** for top placements.

Top Recruiters

- Microsoft
- Amazon
- Dell Technologies
- Cognizant
- Infosys
- Wipro
- Accenture
- Zoho
- Wells Fargo
- Juspay

The placement cell also provides industry mentorship and training sessions for students.

---

7. Student Placement Statistics

- Over **600 students placed in 2025**.
- Many students receive offers above **₹10 LPA**.
- Placement training programs include aptitude training, soft skills, and mock interviews.

---

8. Awards and Achievements

The institution has received several recognitions including:

- Best Industry Linked Emerging Engineering Institute Award by AICTE-CII.
- Best Placement and Career Building Award by All India Technical and Management Council.
- Sustainable Institute Industry Partnership Award.

These awards highlight the college's commitment to industry collaboration and career development.

---

9. Events and Technical Activities

The college organizes several technical and academic events throughout the year.

Major Events

- Gameathon
- Ideathon
- Freshathon Project Expo
- Guest lectures and technical workshops
- National Science Day celebrations.

These events encourage innovation, teamwork, and technical creativity.

---

10. Research and Innovation

The college promotes research and innovation through:

- Faculty research projects
- International conferences
- Patents and publications
- Innovation labs and research centers

Faculty members regularly participate in faculty development programs and research activities.

---

11. Student Support and Welfare

The institution provides various student support systems including:

- Career development training
- Industry mentorship programs
- Placement preparation workshops
- SC/ST welfare cell for student support.

These initiatives ensure equal opportunities and academic success for students.

---

12. Contact Information

Sri Eshwar College of Engineering
Kondampatti (Post), Vadasithur (via),
Coimbatore – 641202
Tamil Nadu, India.

Phone: +91 97153 17171
Email: sece@sece.ac.in

Distance:

- 34.5 km from Coimbatore International Airport
- 29 km from Gandhipuram Bus Stand.

---

13. Key Facts Summary

Category	Details
Location	Coimbatore, Tamil Nadu
Programs	UG, PG, Doctorate
Departments	10+ engineering departments
Highest Package	₹44 LPA
Companies Visiting	~200 per year

Category	Details
Recruiters	Microsoft, Amazon, Zoho, Dell
Students Placed	600+

Department Achievements – Sri Eshwar College of Engineering

Institutional Achievements

Sri Eshwar College of Engineering has received several awards and recognitions for excellence in engineering education, industry collaboration, and student development.

- The institution received the **Best Industry Linked Emerging Engineering Institute Award** from AICTE-CII in 2014 among 952 engineering colleges in India.
- The college was honored with the **Best Placement and Career Building Award** by the All India Technical and Management Council during the 3rd Annual Corporate Summit.
- Sri Eshwar College received the **Sustainable Institute Industry Partnership Award** from the Society for Educational and Entrepreneurship Development (SEED) under the category of upcoming engineering colleges with strong potential.
- The institution was recognized with the **Best Industry Interface Institute Award** by the 24MRC Network in 2015.
- The college received the **Best Organization Encouraging Entrepreneurs in MSME Award** from ASSOCHAM in 2015.
- Sri Eshwar College secured the **9th rank in the DATAQUEST Top T-Schools Survey in 2016**.
- The college was also awarded the **National Level Award for Best Professional Institute for Skill Development** by the Honorable Union Minister Rajeev Pratap Rudi.
- The principal of the institution, Dr. Sudha Mohanram, received the **Icon of Coimbatore Award** from Rathinam Group of Institutions.
- The institution has also received recognition for sustainability initiatives such as the **Igen Green Day Award and SDG Action Award 2024**.

Department Student Achievements

Department Achievements – Sri Eshwar College of Engineering

Computer Science and Engineering (CSE)

- **Students were selected among the Top 10 teams in Volkswagen Imbiothon 2025.**
- **Students were selected among 75 students nationwide for the NXP Women in Tech Program.**
- **Students were recognized among India's Top 80 Adobe Student Ambassadors.**
- **Students secured Top 10 position in Hackathrone 2025.**
- **Students secured 3rd place in the Samartha 36-Hour National Level Hackathon.**
- **Students received internship offers through Hack It On'25.**

- **Students won the Hack the Horizon Hackathon with a ₹15,000 prize.**
- **Students won Silver in the Hack the Future Hackathon organized by Devpost, receiving $650 prize and $1000 credits.**

Artificial Intelligence and Data Science (AI&DS)

- **Students ranked among India's Top 80 Adobe Student Ambassadors.**
- **Students secured 2nd place in SMARTX Hackathon 2025.**
- **Students achieved 4th place in Void.v1 Hackathon.**
- **Students won Second Prize in TANCAM Hackathon with ₹25,000 award.**
- **Students secured Second place in a National Hackathon with ₹7,000 reward.**

Computer and Communication Engineering (CCE)

- **Students were selected among the Top 10 teams in Volkswagen Imbiothon 2025.**
- **Students became Winners of Quest Global Ingenum 2025.**
- **Students secured 4th place in Void.v1 Hackathon.**
- **Students became Winners of Instaventure.AI Rapid Prototyping Hackathon.**

Electronics and Communication Engineering (ECE)

- **Students were selected among the Top 10 teams in Volkswagen Imbiothon 2025.**
- **Students won the Smart India Pitch Award.**
- **Students were selected among 75 nationwide participants in the NXP Women in Tech Program.**
- **Students secured 3rd place in Samartha 36-Hour National Level Hackathon.**

Electrical and Electronics Engineering (EEE)

- **Students developed a sustainable shore energy project and won the Maker's Arena 24-Hour Hardware Hackathon with ₹3 lakh StartupTN funding.**
- **Students won the Circuit Debugging Technical Symposium competition.**
- **Students advanced to the second round of Hackfest'24 at New Horizon College, Bangalore.**

Information Technology (IT)

- **Students became Winners of Technomeet 2k25.**
- **Students secured Runner-up position in Hackstorm 2k25 (36-hour hackathon) with ₹15,000 prize.**
- **Students secured Runner-up position in Kanam 2025 Project Expo hosted by Dr. NGP Institute of Technology.**

Computer Science and Business Systems (CSBS)

- **Students won KCE Dhruva Project Expo.**
- **Students secured 1st place in OneYes Hackathon with ₹1,250 prize.**
- **Students won GUVI DanJr Hackathon and received a paid internship.**
- **Students secured 1st place in Biz Flare competition.**
- **Students secured 2nd place in NEC Startup Entrepreneurship Summit among 1050 participants with an innovative startup idea.**

Mechanical Engineering (MECH)

- **Students won 1st prize in Thiran 2.0 E-Bike Competition at Jansons Institute of Technology.**
- **Students secured 5th place in the SIEP India 4.0 E-Bike Competition in Bhopal.**
- **Team Electric Thrivers became Runner-up in Hill-Climb Test Award (E-Bike Design Challenge).**
- **Students secured 3rd place in Drone Racing at Krishnecs 2k24.**
- **Students won 1st prize in National Level Hackatheist Contest with ₹10,000 prize.**
- **Students secured 2nd prize in a Project Contest at Sri Krishna College of Engineering.**
- **Students won 1st prize in MEQUEST 2023 Project Pitch for an Automated Guided Vehicle System.**

Institution-Level Achievements

- **Best Industry Linked Emerging Institute Award by AICTE-CII.**
- **Best Placement and Career Building Award by All India Technical and Management Council.**
- **Sustainable Institute Industry Partnership Award by SEED.**
- **Best Industry Interface Institute Award by 24MRC Network.**
- **Best Organization Encouraging Entrepreneurs in MSME by ASSOCHAM.**
- **Ranked 9th in DataQuest Top T-Schools Survey 2016.**

Centre for Higher Education – Keywords and Detailed Content

Higher Education Support

The Centre for Higher Education at Sri Eshwar College of Engineering supports students who want to pursue **postgraduate education such as MS, MBA, or PhD in foreign universities**. The centre provides structured guidance and preparation programs for global education opportunities.

Core Activities

Overseas Education Guidance

The centre helps students understand **global education pathways**, including admission processes, university selection, and scholarship opportunities.

Keywords

- Higher education abroad
- International universities
- Global academic opportunities
- Overseas admission guidance
- Study abroad preparation

Competitive Exam Preparation

Students receive training and coaching for **international entrance examinations required for higher education abroad**.

Keywords

- GRE preparation
- TOEFL preparation
- IELTS training
- English proficiency training
- Graduate admission preparation

Foreign Language Training

The centre also provides **foreign language training programs** that help students prepare for global career and academic opportunities.

Keywords

- Foreign language training
- International communication skills
- Global career readiness
- Language proficiency programs

International Exposure Programs

Semester Abroad Program

Students can study a semester in foreign universities through academic collaborations and mobility programs.

Keywords

- Semester abroad
- Global exchange program
- International academic mobility
- Study exchange opportunities

International Internship Programs

The institution encourages students to take **internships in international organizations or research labs**.

Keywords

- International internships
- Global industry exposure
- Research internships abroad
- International professional experience

Summer and Winter School Programs

Students can attend **short-term global programs conducted by foreign universities** during summer or winter semesters.

Keywords

- Summer school programs
- Winter school programs
- Short-term international courses
- Global academic workshops

Global Academic Collaboration

International Visiting Faculty

The college invites **international faculty members and experts** to deliver lectures and workshops for students.

Keywords

- Visiting international professors
- global academic collaboration
- international guest lectures
- cross-border research interaction

Career and Higher Education Pathways

The centre helps students plan different **higher education and career paths after graduation**.

Keywords

- MS abroad
- MBA abroad
- PhD abroad
- global research programs
- international career pathways

Skills Developed Through the Centre

Students gain several important skills while preparing for higher education opportunities.

Keywords

- Academic writing
- Research proposal development
- Statement of purpose preparation
- Interview preparation
- global communication skills

Objective of the Centre

The main objective of the Centre for Higher Education is to **prepare students for global academic and research opportunities through structured training and international exposure programs**

Sri Eshwar College of Engineering – Extracted Contents

College Overview

Sri Eshwar College of Engineering is an autonomous engineering institution located in Coimbatore, Tamil Nadu, India. The institution aims to create world-class engineers who contribute to a better future through innovation, research, and industry-focused education.

Sri Eshwar About

The college focuses on experiential learning, industry integration, and holistic student development to prepare graduates for global careers.

UG Programmes Offered

The institution offers several undergraduate engineering programs:

- B.E. Computer Science and Engineering
- B.E. Computer and Communication Engineering
- B.E. Computer Science and Engineering (Artificial Intelligence and Machine Learning)
- B.E. Computer Science and Engineering (Cyber Security)
- B.E. Electrical and Electronics Engineering
- B.E. Electronics and Communication Engineering
- B.E. Mechanical Engineering
- B.Tech Artificial Intelligence and Data Science
- B.Tech Computer Science and Business Systems
- B.Tech Information Technology

Sri Eshwar About

PG Programmes Offered

Postgraduate programs include:

- M.E VLSI Design
- M.E Computer Science and Engineering
- M.E Engineering Design

Sri Eshwar About

PhD Programmes

Doctoral research programs are offered across:

- Engineering
- Technology
- Science
- Humanities disciplines

The institution is recognized as a research institute by Anna University.

Sri Eshwar About

Awards and Accreditations

Sri Eshwar College has received several awards and recognitions for academic and industry excellence.

Major recognitions include:

- Ranked among the **Top 15 colleges in Tamil Nadu**.
- Recognized by the **National Institutional Ranking Framework (NIRF)**.
- Accredited by **NAAC**.
- Programs accredited by **NBA** for departments such as CSE, ECE, EEE, and Mechanical Engineering.
- Awarded the **Best Industry Linked Emerging Institute Award** by AICTE-CII.
- Awarded the **Best Placement and Career Building Award**.
- Received the **Sustainable Institute Industry Partnership Award**.

Sri Eshwar About

Academic Excellence through Industry Integration

The college emphasizes strong collaboration with industries to enhance learning.

Key features include:

- Industry-designed project-based curriculum
- Industry experts delivering project-based courses
- High-performance NVIDIA professional workstations for AI research and automation

- Hands-on learning experience
- Highly qualified faculty with **58% holding doctoral degrees**
- Interactive classrooms
- Innovative learning spaces
- State-of-the-art laboratories

Sri Eshwar About

Industry-integrated education helps students stay aligned with current technological advancements and industry requirements.

Centres of Excellence

Sri Eshwar provides **Centres of Excellence (CoE)** to help students learn emerging technologies from the first year.

18 Centres of Excellence

- Artificial Intelligence and Robotics
- Data Science
- Machine Learning
- Cloud Computing
- Cyber Security
- Gaming and Animation
- Augmented Reality and Virtual Reality
- Full Stack and App Development
- Business Analytics
- System on Chip
- Embedded and IoT
- Drone Technologies
- Networking
- Electronic Design and Automation
- Robotics and Industrial Automation
- 3D Printing and Reverse Engineering
- E-Vehicles
- Graphics and Design

Sri Eshwar About

These centres allow students to gain skills, build products, solve real-world problems, and obtain international certifications.

Innovation Ecosystem

Sri Eshwar provides innovation-focused spaces that encourage product development and collaboration.

MakerSpace

A collaborative environment where students design and build innovative products.

Collab Space

A teamwork environment where students prepare for hackathons and work on projects.

These facilities promote interdisciplinary collaboration and product innovation among students.

Sri Eshwar About

Product Development at Sri Eshwar

Students develop real-world products as part of their learning.

Examples include:

- Bill Buddy – Self Billing Kiosk
- Track Buddy – Bus Tracking System
- UniOps – Event Management System
- StaffPulse – Staff Appraisal System
- LMS – Leave Management System
- E-Vehicle projects

Sri Eshwar About

These projects demonstrate the practical implementation of engineering concepts.

Startup Accelerator – Ignite

The **Ignite Startup Accelerator** supports students who want to build startups.

Features include:

- Mentorship from industry experts
- Collaborative workspaces
- Technical and business guidance
- Support to convert ideas into prototypes and successful startups

Sri Eshwar About

Research and Development

The **Centre for Research and Development** encourages research and innovation.

Key statistics:

- **58% faculty members hold PhDs**
- **2200+ Scopus indexed publications**

- **780+ patents published**
- **₹4.08 crore research funding**
- **₹1 crore seed fund grants**

The college hosts **19 advanced research centers** supporting cutting-edge research activities.

Sri Eshwar About

International Relations and Global Opportunities

The **Centre for International Relations** provides global exposure opportunities.

Programs include:

- Semester Abroad Programs
- International Internships
- Summer and Winter School Programs
- Overseas Study Programs

Students can pursue international master's programs through global partnerships with universities.

Sri Eshwar About

The institution also offers **Japanese and German language training** to help students prepare for global careers.

Sri Eshwar About

Campus Life

The campus provides a vibrant and positive student environment.

Activities include:

- Cultural events
- Music and dance programs
- Student clubs and competitions
- Technical events and hackathons

Campus life focuses on creativity, teamwork, and personal growth.

Sri Eshwar About

Sports Facilities

The college promotes sports and physical fitness through facilities for:

- Cricket
- Basketball
- Athletics
- Martial arts

- Indoor games

Sports activities help students develop teamwork, leadership, and discipline.

Sri Eshwar About

Campus Amenities

Sri Eshwar offers modern amenities to enhance student life.

Facilities include:

- Dining halls and food courts
- Gym and fitness center
- Boys and girls salons
- Medical center
- Chat corners and recreational spaces
- Copier center and student service areas

Sri Eshwar About

Hostel Facilities

Hostel facilities provide a comfortable environment for students.

Features include:

- Separate hostels for boys and girls
- Safe and secure campus
- Comfortable rooms and study areas
- Recreational spaces

The hostel environment encourages collaboration, teamwork, and community living.

Sri Eshwar About

Admission Cutoff (2025-2026)

The brochure also includes minimum cutoff marks for different departments under TNEA counseling.

Departments listed:

- Artificial Intelligence and Data Science
- Artificial Intelligence and Machine Learning
- Computer Science and Business Systems
- Computer and Communication Engineering
- Computer Science and Engineering
- Electronics and Communication Engineering
- Electrical and Electronics Engineering

- Information Technology
- Mechanical Engineering
- Cyber Security

Best Department to Choose – Sri Eshwar College of Engineering

Choosing the best department depends on a student's **interest, career goals, and industry demand**. Sri Eshwar College of Engineering offers several engineering programs including Computer Science, Artificial Intelligence, Electronics, Mechanical, and Information Technology.

Below is a detailed explanation of major departments and who they are best suited for.

Computer Science and Engineering (CSE)

Computer Science and Engineering is one of the most popular departments because of its strong demand in the software industry.

Why choose CSE

- Focus on programming, software development, and algorithms
- Covers technologies like AI, data science, and cloud computing
- High placement opportunities in IT companies
- Strong research and software engineering foundations

Students in the CSE department learn programming languages such as **Java, Python, C++, and database systems** along with advanced computing technologies.

Best for

Students interested in:

- Software development
- Artificial intelligence
- Data science
- Technology startups

Artificial Intelligence and Data Science (AI & DS)

This department focuses on modern technologies related to intelligent systems and data analysis.

Why choose AI & DS

- Growing demand in AI, machine learning, and analytics
- Focus on big data, predictive analytics, and intelligent systems
- Strong career opportunities in AI companies and research fields

The program emphasizes programming, machine learning, and data analysis skills required for modern AI applications.

Best for

Students interested in:

- Artificial intelligence

- Data science
- Machine learning
- Research in intelligent systems

Artificial Intelligence and Machine Learning (AI & ML)

This program focuses on developing intelligent algorithms and automated systems.

Why choose AI & ML

- Focus on deep learning and neural networks
- Hands-on projects with AI technologies
- Increasing demand in robotics and automation

Students learn technologies such as **computer vision, natural language processing, and predictive analytics**.

Best for

Students interested in:

- AI research
- robotics and automation
- intelligent software systems

Information Technology (IT)

Information Technology focuses on software systems, networks, and IT infrastructure.

Why choose IT

- Focus on software engineering and networking
- Careers in system administration and cloud computing
- Strong demand in IT services companies

Best for

Students interested in:

- software engineering
- IT infrastructure
- cloud technologies

Electronics and Communication Engineering (ECE)

ECE focuses on electronics systems and communication technologies.

Why choose ECE

- Combines hardware and software skills
- Careers in telecommunications, embedded systems, and chip design

Best for

Students interested in:

- electronics
- communication systems
- embedded systems

Mechanical Engineering

Mechanical Engineering deals with machines, manufacturing, and mechanical systems.

Why choose Mechanical

- Focus on mechanical design and manufacturing
- Careers in automotive, robotics, and industrial engineering

Best for

Students interested in:

- machines
- automobiles
- manufacturing technology

Computer and Communication Engineering (CCE)

CCE combines computer science with communication technologies.

Why choose CCE

- Hybrid field of computing and networking
- Focus on programming, communication systems, and data networks

Best for

Students interested in:

- networking
- communication technology
- computer systems

Simple Answer for Students

If a student asks **"Which department is best?"**, a general recommendation is:

- **CSE / AI / Data Science** → Best for software and tech careers
- **ECE** → Best for electronics and embedded systems
- **Mechanical** → Best for core engineering industries
- **IT** → Best for software and IT infrastructure careers

The best department is the one that **matches the student's interest and career goals**.

Hostel Facilities – Sri Eshwar College of Engineering

Sri Eshwar College of Engineering provides **on-campus hostel facilities for both boys and girls** to ensure a safe and comfortable living environment for students.

Accommodation

- Separate hostels are available for **male and female students**.
- The campus contains **multiple hostel blocks** with hundreds of rooms.
- Rooms are available in **2-sharing, 3-sharing, and 4-sharing** options.
- Students can choose between **attached bathroom and non-attached bathroom rooms**.

Each hostel room is furnished with:

- Bed
- Study table
- Chair
- Wardrobe
- Internet access (Wi-Fi)

The hostel environment is designed to provide a **home-like atmosphere for students who stay away from their families**.

Safety and Security

Student safety is a major priority in the hostel.

Security features include:

- **24-hour security and CCTV surveillance**
- Strict hostel rules and attendance checks
- Controlled entry and exit timings
- Ragging-free campus environment

These measures help maintain a **safe and disciplined living environment** for students.

Hostel Amenities

The hostel provides several facilities to support daily student life.

Major amenities include:

- High-speed **Wi-Fi internet**
- **Gym and fitness facilities**
- **Laundry services**
- **Recreation areas and common rooms**
- **Medical assistance and first aid facilities**
- **Water purifiers and drinking water systems**

These facilities ensure that students have **both academic and personal comfort** while staying in the hostel.

Food and Mess Facilities

The hostel provides **mess facilities that serve regular meals for students**.

Mess Facilities

- The hostel campus has **multiple mess halls** with large seating capacity.
- Students are served **nutritious and hygienic meals daily**.
- Meals are available at fixed timings such as breakfast, lunch, and dinner.

Types of Food

The mess provides a variety of cuisines including:

- South Indian food
- North Indian food
- Chinese dishes
- Snacks and beverages

Food is prepared to provide **balanced nutrition for students living on campus**.

Cafeteria and Additional Food Options

Apart from the hostel mess, the campus also includes **canteens and cafeterias** where students can buy snacks, beverages, and quick meals.

The cafeteria has a **large seating capacity and offers a variety of food options** for students throughout the day.

Overall Hostel Experience

The hostel life at Sri Eshwar College provides students with:

- Comfortable accommodation
- Safe and secure environment
- Nutritious food and dining facilities
- Opportunities to interact with fellow students
- Access to recreation and study spaces

Hostel life helps students **develop independence, teamwork, and lifelong friendships while focusing on their academic journey**.

Fee Information Response Policy – Sri Eshwar College Assistant

Tuition Fee Information

The tuition fees for programs at Sri Eshwar College of Engineering may vary depending on the department, admission category, and academic year. For the most accurate and updated fee details, students are advised to contact the college reception or admission office.

Response:
For detailed information about tuition fees, please contact the **college reception or admission office**.

Hostel Fee Information

Hostel fees depend on factors such as room type, accommodation options, and additional facilities. Students should contact the college reception for the latest hostel fee structure.

Response:
For the latest hostel fee details, please contact the **college reception**.

Overall Fee Details

The overall cost of studying at Sri Eshwar College may include:

- Tuition fees
- Hostel fees
- Mess charges
- Examination fees
- Other academic or administrative charges

Since these charges may change each academic year, students should verify the details with the college directly.

Response:
For complete fee information, please contact the **college reception or admission office**.
